

WHITE OAK.

McGinty is still on deck  
Rain, rain, oh gentle rain.  
Corn cutting is the order of the  
day.

Wheat is not coming up very  
well.

Weddings are about as numer-  
ous as bumble-bees in hay harvest.

Mrs. Stuart returned home to  
Viriden Saturday.

Ye editor will oblige us by  
changing our paper to White Oak  
again.

Jake Paul and Chas. Hill are  
both erecting new barns.

Arthur Clower smiled on his  
many friends here over Sunday.

Mrs. W. H. Whitman is build-  
a new house. Sincebox & Louis  
are doing the work.

Thos. Woodward is home again  
from Kansas and is no better at  
this writing.

Jno. Eskin and grand daughter  
Miss Minnie Patterson were Vir-  
den callers Monday.

Several of our whole soul young  
rampant republicans are enjoying  
themselves greatly by going over  
to Zenobia quite often.

W. A. Lyman was taken seri-  
ously sick Saturday while on his  
way to Viriden and was not able to  
get home until Sundsy.

get home until Sundsy.

Quite a number of our good old  
stand by republicans as well as  
several good democrats, attended  
the Cullum rally at Viriden Satur-  
day and came home feeling as  
though it was good to be there.

J. L. Sigley departed for Soren-  
to Tuesday where he will visit  
friends and relatives for awhile.

Joseph Weber arrived home  
Friday from North Dakota and is  
looking greatly improved.

The Zenobia Harrison & Reid  
Club passed through here Satur-  
day; their Red White and Blue  
uniforms made the boys loom up  
and step around as big as a young  
turkey gobbler; they surely took  
the rag off the bush at Viriden  
for we heard it whispered quite  
often that they were among one of  
the best drilled clubs that were  
there. Hurrah for Zenobia.

In last week's issue of the So-  
rento Blade, one of its correspon-  
dents refered to our friend Logan  
Sigley's arrival home to Illinois,  
and they hoped our Fall weather  
would soon thaw him out and melt  
the frost off his back. We wish to  
say he arrived here safely looking  
smilish as ever and was well pleas-  
ed with his trip, and should the  
Hon. Correspondent desire a nice  
gentle breeze that will make his  
coat-tail play whip-cracker around  
his legs and cool off his sweating  
brow, our advice would be to him  
to try the Northwest and we will  
venture to say he will not have to  
wait long until he is accommoda-  
ted. McGinty.
